

Pizza Oven

Roaster presents one of its latest creations, the Wood – fired Pizza Oven also available in Gas version. It is a modernly designed oven made of stainless steel, easy to use and clean. Either countertop or with cabinet, it is the ideal equipment for pizza restaurants, pizzeria and mobile businesses. The Roaster Pizza oven can reach 450°C in just 35 minutes. Thanks to the refractory floor which retains the heat perfectly, releasing it evenly in the cabin for hours, it is capable of baking 60 pizzas in an hour. Authentic pizza crust should be crispy on the outside and practically melt in your mouth shortly after you bite into it. Achieve this crispness-to-softness balance by choosing your Roaster Pizza Oven and taste the authentic Italian pizza wherever you may be.
